50 let nepozabnih poletov, evforije, adrenalina, ponosa in razvoja doline pod Poncami je za nami. Mi letimo vedno dlje, čas pa vedno hitreje. Razvoj letenja na smučeh še ni končan, to je zagotovo. In tako kot se je razvila Planica v svoji podobi, vsaj tako edinstvena mora biti tudi naša ponudba.

Svetovno prvenstvo v poletih je nivo tekmovanja, ki se mora odražati tudi v raznovrstnosti ponudbe, v posebni podobi prizorišča in v organizacijski popolnosti.

Vsako leto je planiški praznik dogodek, na katerem se srečujejo tudi predstavniki gospodarstva, politike in estrade. Je dogodek, ki odpira vrata novim priložnostim in dogodek, kamor privabimo tudi tiste posameznike, ki jim Planica pričara popolno podobo ekskluzivnosti.

In zato tudi Vi ta trenutek razmišljate, če je prav ta ponudba tista, na katero ste čakali.

Kako dolgi bodo poleti na Svetovnem prvenstvu 2020 v Planici ne vemo. Če bo padel svetovni rekord vam prav tako ne moremo obljubiti. Kako toplo bo sijalo sonce tudi še ne vemo. Smo pa prepričani, da Planice 2020 ne boste pozabili nikoli.

Crystal Globe Lounge je rezultat povpraševanja po najvišjem nivoju gostoljubja na športnem dogodku. V čast nam je, da lahko tudi Svetovno prvenstvo v poletih 2020 v Planici, zadosti vsem pričakovanjem najzahtevnejših obiskovalcev tega dogodka.

V novem osrednjem objektu v Nordijskem centru Planica, lahko tako gostimo tudi velika imena iz sveta športa, gospodarstva in politike.

Planica je postala dolina svetovnih prvenstev. S pridobitvijo organizacije FIS svetovnega prvenstva v nordijskem smučanju za leto 2023, smo dolini pod Poncami začeli dodajati povsem novo vsebino in pisati novo zgodovino.

Pomembna organizacijska uvertura nas čaka že s Svetovnim prvenstvom v poletih 2020.

*50 years of unforgettable flights, euphoria, adrenaline, pride and development of the valley below Ponce is behind us. We fly further and further, and the time flies faster and faster. The progress of ski-flying is not yet complete, that's for sure. And just as Planica developed its image, our offer needs to be just as unique.*

*The Ski Flying World Championships reaches the level of the competition that must also be reflected in the diversity of the offer, in a special image of the venue and in organizational perfection.*

*Each year, the Planica feast turns into an event where also the representatives of the economy, politics and show business gather together. It is an event that opens the door to new opportunities and an event that attracts also those individuals whom Planica conjures up the perfect image of exclusivity.*

*And that's why at this very moment you are also thinking if this offer is exactly what you were waiting for.*

*How long will the ski flights at the World Cup 2020 in Planica be, we do not know. We also cannot promise you that the world record will be broken. And we also do not know how warm the sun will shine. But we are convinced that you will never forget Planica 2020.  
pozabili nikoli.*

*The Crystal Globe Lounge is the result of the demand for the highest level of hospitality at our sports event. We are honoured that the FIS Ski Flying World Championships 2020 in Planica can meet all the expectations of the most demanding visitors of this event.*

*In the new central facility in the Nordic Centre, we can thus host great names from the world of sports, economy and politics.*

*Planica has become a valley of world championships. By winning the organization of the FIS Nordic World Ski Championships for 2023, we began to add completely new contents to the valley under Ponce and to write new history.*

*An important organizational overture will start with the FIS Ski Flying World Championships 2020.*
